BIDS UNPOPULAR WITH THE COUNCIL

"Americans" Block Attempt to Cut Down Exorbitant Advertising Rates.

PAT MORAN WAS INTERESTED.

Same Committee Kills Fernstrom's Or dinance on Blasting-Contractor Among Alleged Offenders,

The Fernstrom resolution authorizing the city recorder to call for bids from all the papers of the city for publishing all necessary notices tor public improvements was killed by the municipal laws committee last night but it is very probabye that Fenstrom but it is very probable that Fernstrom it at the meeting of the council next Monday night. He attempted to take it out of the hands of the committee last Monday night, but failed, and it is last Monday night, but failed, and it is now his intention to get at it in some form, so that the cost of advertising can be cut down below the price now paid to the organ of the "American" party. Fernstrom claims that under the new law the advertising as well as the other work on public improvements paid by special taxe assessments will have to be let to the lowest bidder, and if he can not get the council to adopt his resolution, he will probably get some property owner to refuse to pay for the advertising and make a test case of it in the courts.

KILLED THE ORDINANCE.

The same committee also killed the ordinance introduced by Fernstrom, prohibiting biasting in lime and stone quarries inside the city limits. A large number of complaints have been made by the residents in the northern part of the city against the biasting being done in the lime quarry of the American Smelting & Reining company. It seems, however, that the city recently leased the old Pascoe quarry to Pat Moran, and if the ordinance were passed, it would mean that Pat would have to close down that quarry also. He was on hand last night when the committee considered the matter and was successful in having the ordinance killed. The same committee also killed the

LIVELY CONTEST DUE.

LIVELY CONTEST DUE.

The ordinance proposed by City Food Inspector Frazier, which contemplates combining that office with the office of sealer of weights and measures, was considered by the laws committee, and the recommendations of Mr. Frazier will probably be carried out. A special committee, consisting of Fernstrom, Holley, Inspector Frazier and the city attorney, will draw up the ordinance and will submit it to the council. Should the consolidation of the two departments take place, there will be a lively contest between Frazier and Sealer of Weights and Measures Brough for the head of the department. The position will pay \$1,500, and there will be a deputy at a salary of \$900 per year. The man who gets the first place will no doubt appoint the other as his deputy.

sanitary committee considered the Hobday ordinance restricting the amount of garbage to be hauled free from the business district of the city. from the business district of the city. Wells proposed several amendments, among which was placing a time limit during which garbage cans could be placed on the sidewalks. At this would mean the employment of an extra man for each team in the business district, the committee decided that the expense would be too heavy, so it decided to recommend the passage of the ordinance in its original form.

ELKS SEEK NO AID.

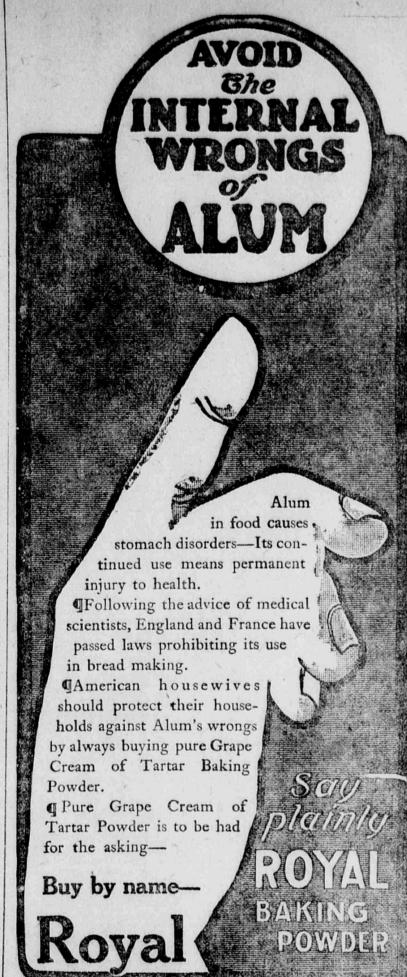

False Impression is Circulated Owing To Unauthorized Solicitations.

The Attention of Exalted Ruler W. P. Cooper of Salt Lake lodge No. 85, P. B. D. E., has been called to the fact that O. E., has been called to the fact that some person or persons have made attempts to solicit contributions for the alleged purpose of providing an exhibit of Utah products to take to Philadelphia when the Elks go to that city to attend the convention there next July.

Examed Ruler Cooper said this morning that all public spirited citizens are invited to join the excursion with the Elks but he wanted it distinctly understood that the Elks were not asking for contributions.

that the Elks were not asking for contributions.

"I hope it will be thoroughly underscood that we are not asking for contributions," said Mr. Cooper. "We are not asking anothing of the business men in this matter. From certain the thous which have beer emely yed there are asking for financial aid. This is not true in any sense. We will do all in our power to advertise this city but we are certainly not asking for contributions. The value of a good exhibit of Utah products cannot be disregarded, but it is not four intention to purchase the exhibit. It will be provided through voluntary contribution."

NEWTON WAIVES HEARING.

Attorney Featured in McWhirter Case Goes Direct to District Court.

Atty. William Newton will not force

the state to the necessity of putting on witnesses to prove that he ought to be bound over to the district court on the charge of conspiracy, in connection with the McWhirter robbery, but he has waived preliminary hearing and accepted the alternative of having his case go directly to the district court.

The matter was settled this way yesterday afternoon at a preliminary hearing before Justice Francis M. Bishop. Since Judge Armstrong made his famous decision allowing Chief Sheets his liberty on the grounds that the Mc-Whirter robbery was a felony and that Sheets was only charged with a misdemeanor in conspiring to bring it about, Atty. Soren X. Christensen has cultivatthe state to the necessity of putting on

AMUSEMENTS.

Theater—The wonderful hold Miss Rice's two books, "Mrs. Wiggs of the Cabbage Patch" and "Lovey Mary" have on the public, was again illustrated last night. In spite of the fact that the play has been done several times before and that the original creator of the central role, Madge Carr Cooke, was known to be in London, (where she is scoring nightly triumphs in the part)—a handsome audience

Cooke, was known to be in London, (where she is scoring nightly triumphs in the part)—a handsome audience came out to greet the company on its re-appearance. The galieries were crowded and the lower part of the house well filled.

The sort of play that has been made by putting the two well known books together is so well remembered that it needs no redescription. The plot is almost nil, but the character sketches, the ludicrous dialogues, and the homely philosophy of Mrs. Wiggs, appear so strongly to the average audience that everything goes with a whirl of merriment and applause. This was the case again last night, and the principal figures all came in for the heartiest signs of favor. To those who remembered the previous delineation there were some short comings, Miss Chapman is too evidently youthful for an ideal Mrs. Wiggs and she has not the keen comedy instincts that made Mrs. Cooke's interpretation of the role stand out so distinctly. Still her delineation was very pleasing to the audience and she had some hearty calls. Miss Ogden in the rich part of Mis' Hazy, scored immensely, and much of her work was side splitting, but if any suggestion were to be made, it would be that she

slightly overdraws the part, robbing it of some of the delicacy with which the original, Helen Lowell, invested it. The part of Loyev Mary is in the hands of Edith Taliaferro, last seen here as a child with "The Bonnie Brier Bush" company. Though she seemed encumbered with her very heavy auburn wig, she acquitted herself with credit, Those two inimitables, Mr. Carter in the part of Stubbins and Helen Raymond in the role of Mrs. Elehora are still with the company, and it is hard to say what the piece would be without them, Mr. Carter, in fact, dominates all the situations whenever he was on the stage. The remainder of the cast was in good hands and the scenery was excellent.

The final presentations occur tonight, tomorrow afternoon and evening and big business may be cunted on.

Lyrie—Low priced vaudeville is frawing heavily at this place of amuse-nent. The customary change will be nade tomorrow afternoon.
